# ■ About us

## ● Introduction

Since 2009-Foresight has been on the leading edge of manufacturing technologies and continues to be one of the key designers and manufacturers of numerous and unique live event/live sporting event products worldwide. Our specialties include; custom design-builds, aluminum truss, aluminum barricade, aluminum stages and the ever increasingly popular Ninja Warrior set configurations. Safety, quality and the acute attention to details makeup our companies' core set of values, beliefs and standards. With safety, the client and the end use always at the forefront of everything that we do-our result is delivering the highest quality and safest product line available in the market today to our numerous clients around the globe.

## ● Quality Assurance - Every Step of the Way

What sets Foresight apart from our competitors? It is our never ending-100% commitment to quality assurance for each and every project we embark upon with you. Whether you are renting, purchasing or creating a custom design for your live event needs-Foresight has you covered with our Quality Assurance Pledge to you as our client. Our stringent manufacturing methods and processes coupled with our detailed and internal quality control practices-as-sure quality, safety and reliability with every item we produce for you.

## Concept and Design

Every great product starts with a well-planned design. At Foresight, we deploy a full top to bottom design-build process to bring your custom vision to life. We will work directly with you every step of the way from concept through design through final manufacturing. Foresight hosts a full time and seasoned design staff that is standing by to provide you with clear and concise renderings of your custom products. Once you are satisfied with this design and prior to beginning manufacturing-we then employ a 3rd party German design firm to complete final certifications on all design-build renderings.

## ● Materials

Quality Assurance can only start with quality products. In this regard, Foresight only sources the highest quality stock and materials from vendors who are in possession of EU compliant certificates. Using the right stock and base materials for the job allows us to apply true craftsmanship and attention to details to our strictly managed manufacturing processes.

## ● Manufacturing

At Foresight, our manufacturing standards are at the leading edge of modern standards and methods. Our company is proud to have passed the ISO 9001 International Quality System Certification. We are also proud to be in compliance with the manufacturing standards as set forth by EU EN1090. Furthermore, we are very pleased to be certified with the EN1090-1 /-3 certification as issued by TUV NORD which is the "Gold Standard" for aluminum truss manufactures worldwide. To further ensure the utmost and highest quality for our customers, all of our on-staff welders go through a rigorous and detailed in house training program and then must test and become certified with the "AWS" American Welding Society-Professional Certifications.

## ● Customer Service

Your complete and total satisfaction is our priority. Our team of industry professionals are standing by to assist you through all the processes involved in designing, purchasing, renting and the manufacturing of all of our live event product lines. We invite you to take the time to discuss your industry needs with one of our staff. Our quoting process is streamlined and efficient and we can usually provide you a verified quote within 1-2 days.

## ● Global Distribution

Foresight currently has strategic distribution points set throughout the globe to make the rental and purchasing of our products both economical and easy no matter where you may be. Our global partners are well versed in our products and processes and are available to assist you every step of the way.

## ● North American Distribution-Strategic Partnerships

Foresight currently has strategic partners and distribution facilities located in the USA standing by to help you with your ordering and logistical needs. These established, US based companies are located in Miami, Omaha, Los Angeles and San Francisco.

## ● European Union-Strategic Partnerships

Foresight also currently has strategic partners and distribution facilities located in England, Germany and Sweden standing by to help you with your ordering and logistical needs.

## ● Australasia-Strategic Partnerships

Foresight also currently has strategic partners and distribution facilities located in Australia and New Zealand standing by to help you with your ordering and logistical needs.
